

**LYNCH**  
MEETING HIRE DEMANDS

# PRODUCT GUIDE

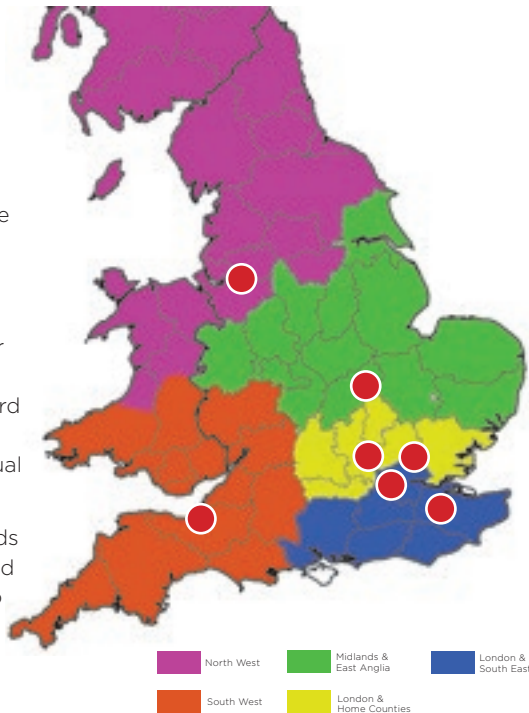

# WELCOME TO THE LYNCH PRODUCT GUIDE

This booklet gives you an indication of the wide range of equipment currently available within the Lynch Fleet – over 3,000 items with an average age of 18 months.

At Lynch, we have a strong commitment to our customers which ensures we can provide the best service at all times. We deliver this standard by employing highly-skilled, well-trained and fully motivated staff, as well as through continual investment in machinery and equipment.

Our hire team is trained to the highest standards and our operators deliver superior reliability and productivity. We all work together as a team to meet the high level of service that you expect.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## LYNCH 24 HOUR EMERGENCY CALL OUT SERVICE

Lynch Plant Hire and Haulage can provide a 24 hour plant service to meet all your site needs, including a full range of equipment and attachments, either operated or self-drive. All our operators and fitters are supplied with PTS, LUL, BAA, EUSR and water board safety passports and all industry sectors are catered for including the utility, rail and aviation sectors.

## GRAB & TIPPER LORRY SERVICES

- Over 300 vehicles
- 24 hour services
- Muck Away
- UK wide coverage
- Aggregates Delivery
- NonHaz / Haz Disposal
- Daywork / Nightwork

**Grab & Tipper lorries are also available on a self-drive contract**

As the leading provider of Grab and Tipper Lorries in the UK, Lynch are well placed to offer you the ideal solution to your waste disposal problem.

With one of the largest fleets in the UK our state of the art lorries, complete with experienced operators, guarantee you the best service and support available.

We offer full on site safety compliance, off site waste compliance and innovative recycling methods.

At Lynch we are aware of the importance surrounding environmental issues and therefore embrace such regulations in order to develop a sustainable future.

All drivers and vehicles are FORS Compliant.

### SAFETY SPECIFICATION

- Side and front sensors
- Side camera system for added view of near side of vehicle
- Side underrun guard for extra safety
- Incab warning devices for the driver
- Left turn audible warning for vulnerable road users & pedestrians
- Reversing camera

## HEAVY HAULAGE

- Transport Moves
- Cabin
- Piling Rigs / Long Reach
- HIAB Crane Service
- Daywork
- Access Equipment
- Multi Drop Options

We provide a service that enables a swift and efficient movement of mechanised plant items, materials and cabins. Our extensive fleet includes 45T and 60T low loaders, 6 and 8 wheel Beavertails and 40ft and 40ft extendable flatbeds.

### SAFETY SPECIFICATION

- Side and front sensors
- Side camera system for added view of near side of vehicle
- Side underrun guard for extra safety
- Incab warning devices for the driver
- Left turn audible warning for vulnerable road users / pedestrians
- Reversing camera

### OPERATED AND SELF DRIVE HIRE

- CAT 1,2,3 tractor units
- 6 x 4 tractor units
- 6 x 2 tractor units
- 26T & 32T cheesewedge beavertail HIAB trucks
- 18T, 26T & 32T beavertail trucks
- 3 & 4 axle extendable step frame trailers

For more information or to place an order call 020 8900 9992 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## HIABS & ARTIC HIABS

Lynch can provide a range of 32T Hiabs and Artic Hiabs for transporting and lifting all types of heavy loads and machinery.

### 32T HIAB and PM38524SP crane

- Payload is 13 ton
- Maximum reach 12.5m
- Maximum lifting capacity 2.25 ton at 12.5m reach or 4.5 ton at side of lorry

### 32T HIAB and Palfinger PK42502D crane

- Payload is 11 ton
- Maximum reach 14m
- Maximum lifting capacity 2.5 ton at 14m reach or 4.5 ton at side of lorry

### 32T HIAB and PM85026 crane + winch

- Payload is 6 ton
- Maximum reach 15.5m
- Maximum lifting capacity 3.8 ton at 15.5m reach or 9 ton at side of lorry

### ARTIC HIAB 65T and FASSI 660 + winch

- Payload is 9 ton
- Maximum reach 21m
- Maximum lifting capacity 1.8 ton at 21m reach

All vehicles in the Lynch transport fleet are available for immediate delivery with a driver or on a self-drive basis. Call our team for further details.

For more information or to place an order call 020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

## ROAD SWEEPERS

Chassis requirement 13-15 Tonnes • Discharge height 950 mm (nom) • Discharge angle 54° nominal • Door opening angle 125° nominal • Dust spray pump output Up to 35l/min • Sweeping speeds 2-15 kph • Dust spray water pressure 3.5 bar • Hydraulic suction filtration 125 micron • Hydraulic return filtration 25 micron

### SAFETY SPECIFICATION

- Side and front sensors
- Side camera system for added view of near side of vehicle
- Side underrun guard for extra safety
- Incab warning devices for the driver
- Left turn audible warning for vulnerable road users & pedestrians
- Reversing camera
- Highways spec

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## FUEL AND WATER BOWSERS

At Lynch our bowser solutions ensure site environmental Health & Safety compliance. By using a range of telematics we can also reduce costs, improve carbon efficiency and reduce fuel usage on your project.

Bowser solutions and fuel management systems for infrastructure projects nationwide. 18 Tonne 4-wheel drive bowzers, specified and customised to an individual project's requirements, available for hire either as self-drive or with an ADR qualified driver:

### Fuelling solutions

- 5-10,000 litres
- Fueltek stock control and data reporting
- Banlaw fast delivery system
- Separate pumps for dual fuelling
- Dedicated adblue tanks

### Dust suppression

- 5-10,000 litres
- Various sprinkler set ups

### Water solutions

- 5-10,000 litres
- 2-inch diameter Honda pump
- Up to 6 inch delivery pipes

**Split tanks providing combination of all three.**

## CLAMSHELL TELESCOPIC ARM EXCAVATORS

Telescopic arm excavators are designed for working at deep depths where normal excavators are unable to reach. They can handle material at high speed and good examples of works include: shafts, sea walls and deep utilities.

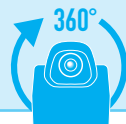

Extras available on telescopic excavator: 360° cameras, slew restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

	Weight	Width	Height	Dig Depth
Hitachi ZX210	27.5T	3250	3280	21150
Hitachi ZX350	42.75T	3390	3460	25000

### 360° CAMERAS AVAILABLE ON MOST PLANT

- Backeye 360 camera system
- Eliminates operator blindspots
- Presenting all-round visibility in one image, making it easy to spot all potential hazards

## 50-70T EXCAVATORS

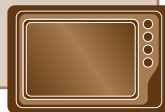

Extras available on 50-70T excavators are: GPS machine control, 360° cameras, slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
50T	3790	3360	8380
70T	4290	4350	8325

ECO mode optimizes the hydraulic system to reduce flow and pressure losses.

### GPS MACHINE CONTROL

Available on dozers and excavators 14 ton and above

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## HEAVY EXCAVATORS

Extras available on heavy excavators are: GPS machine control, 360° cameras, slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, dozer blade (15T only), rubber tracks (15 & 20T only), cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
15T	2690	2770	6060
22T	3080	3045	6620
30T	3390	3180	6915
38T	3390	3160	7380
45T	3350	3455	7741

All machines piped with two way breaker pipe work. Additional hydraulic lines available.

### OPERATORS

All operators available with our core products have CPCS, CBH Medical and many are available with PTS, LUL, Airport and Nuclear passes.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## MINI & MIDI EXCAVATORS

Extras available on mini and midi excavators are: slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valve on boom and dipper circuits, offset boom, dozer blade, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
1T	700-860	1420	1720
1.5T	900-1240	2340	2310
3T	1500	2340	2820
5T	1960	2550	3380
9T	2200	2540	4250

### SLEW, HEIGHT AND LIFTING INDICATORS

- Available on all excavators

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## ZERO TAIL SWING EXCAVATORS

Extras available on zero tail swing excavators are: GPS machine control (15T upwards), 360° cameras (15T upwards), slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, offset boom (9T & 15T), dozer blade (15T only), rubber tracks, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

Weight	Width	Height	Dig Depth
1T	700-860	1420	1720
1.5T	900-1240	2340	2310
3T	1500	2340	2820
5T	1960	2550	3380
9T	2200	2540	4250
15T	2490	2790	5980
25T	2990	2950	6620

### FULL DEMOLITION SPEC AVAILABLE

- ROPS/FOPS certified demo cages
- Cab guards and Ram guards
- Side skirts
- Toughened belly plates

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## WHEELED EXCAVATORS

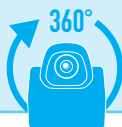

Extras available on wheeled excavators are: slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, offset boom (9T only), dozer blade, cab guards, demo cage, rotate circuit, green beacon seat belt warning system, three piece booms and GPS tracking system.

Weight	Width	Height	Dig Depth
9T	2335	3010	3895
15T	2496	3040	4580
17T	2500	3065	5025
20T	2534	3136	5725

All wheeled excavators are equipped with stabiliser legs and are piped with two way breaker pipe work. Additional hydraulic lines available.

### 360° CAMERAS AVAILABLE ON MOST PLANT

- Backeye 360 camera system
- Eliminates operator blindspots
- Presenting all-round visibility in one image, making it easy to spot all potential hazards

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## LONG REACH EXCAVATORS

Extras available on long reach excavators are: 360° cameras slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, offset boom, rubber tracks, cab guards, demo cage, beacon, seat belt warning system and GPS tracking system.

Weight	Width	Height	Depth	Reach
14T	2690	2845	10090	13100
20T	3090	2946	11990	15600
40T	3390	3160	17485	22010
55T	3720	3750	14300	19600

### BIO-DEGRADABLE HYDRAULIC OIL

We can convert our machines to use Bio Oil at our customers' request. This is needed on sensitive sites such as Environment Agency works, harbour or sea defence. All machinery that has Bio Oil will be clearly labelled.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## BACKHOE LOADERS

Extras available on backhoe loaders are: height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, offset boom, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
9T	2352	3717	5954

This versatile machine can be used as an excavator, loading shovel and light duty fork lift.

### SECURITY

- All our new mini, midi and large excavators are fitted with trackers as standard
- Machines are fitted with ENIGMA security or manufacturers individual /key immobiliser
- Equipment is 4-star rated Thatcham approved
- Lynch is a member of the CESAR protection scheme

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## DOZERS

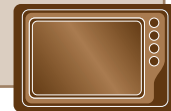

Extras available on dozers are: GPS Machine Control, ripper, 360° cameras, Chalwyn valves, spark arrestors and green beacon seat belt warning system.

Type	Blade Width	Height	Operating Weight
D5K	3320	2728	9213kg
D6N	4080	3083	16757kg
D6T	4160	3235	21381kg
D8	4267	3488	39417kg
D10	4860	4505	70170kg

All dozers available with three tyne rippers.

### GPS MACHINE CONTROL

Available on dozers and excavators 14 ton and above

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## TELEHANDLERS

Extras available on telehandlers and rotos are: 360° cameras, side sway, cab guards, foam filled tyres, bucket, sweeper, green beacon seat belt warning system, extension forks, extendable jibs, crane hook, tipping skip, road brush and man cage.

For more information or to place an order call **020 8900 0000** or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

Type	Width	Max Lift	Full Reach
Straight Mast	2200	2600kg	1400kg
4m Tele	1560	2000kg	1000kg
5m Tele	1840	2000kg	750kg
6m Tele	1813	2500kg	1040kg
7m Tele	2230	3100kg	1250kg
7m Heavy Tele	2230	4100kg	1500kg
9.5m Tele	2290	3500kg	550kg
12m Tele	2350	3500kg	1150kg
14m Tele	2350	3500kg	1250kg
17m Tele	2440	4000kg	600kg
20m Tele	2440	1500kg	200kg

All machines are registered for road use.

## ROTOS

Our extensive range of top brand rotation telehandlers is available nationwide with a lift range of 17m to 30m. Large variety of attachments available.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

Type	Width	Height	Max Lift Height	Max Lift	Full Reach Lift
18m Roto	2500	3090	17560	4999kg	3000kg
21m Roto	2400	2990	20800	4500kg	2500kg
26m Roto	2400	2950	26000	4000kg	1500kg
30m Roto	2490	3100	29500	4000kg	1500kg

All machines are registered for road use.

### OPERATORS

All operators available with our core products have CPCs, CBH Medical and many are available with PTS, LUL, Airport and Nuclear passes.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## DUMPTRUCKS

Extras available on dumptrucks are: road registered, tailgate, flotation tyres, Chalwyn valves, spark arrestors, green beacon seat belt warning system and GPS tracking system.

Type	Width	Height	Length	Capacity (heaped)
12T	2490	2750	5950	5.6m <sup>3</sup>
30T	2950	3779	10555	17.1m <sup>3</sup>
40T	3357	3855	10485	23m <sup>3</sup>

### SECURITY

- All our new Mini, Midi and Large Excavators are fitted with trackers as standard
- Machines are fitted with ENIGMA security or manufacturers individual /key immobiliser
- Equipment is 4-star rated Thatcham approved
- Lynch is a member of the CESAR protection scheme

## DUMPERS

Extras available on dumpers are: Vehicle Collision Avoidance System (VCAS) or forward facing camera, road legal lights, flotation tyres, foam filled tyres, Chalwyn valves, spark arrestors and green beacon seat belt warning system.

Load	Type	Width	Height
1.5T	Swivel	1305	2550
3T	Swivel	1785	2670
6T	Swivel	2210	3080
9T	Straight	2500	3342
9T	Swivel	2465	3355

Dumper height with roll bar up.

Dumpers from 6T upwards can come with a fully functioning driver's cab.

### AGE PROFILE

All Lynch machines have an average age of 18 months and are fully equipped with the very latest in health and safety technology

Plus, all our lorries are FORS compliant.

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## TRACKED DUMPERS

Extras available on tracked dumpers are: lights, Chalwyn valves, spark arrestors and green beacon seat belt warning system.

Load	Width	Height	Unladen
3T	1700	2250	2.3T
7T	2650	2900	11T
11T	2860	3170	14T

### MUCK AWAY

Do you need muck away? We have a fleet of tipper and grabs which can manage any size of project...

## ROLLERS

Extras available on rollers are: Chalwyn valves, spark arrestors and green beacon seat belt warning system.

Type	Width	Height	Operating Weight
BW80	856	2300	1620kg
BW90	956	2300	1520kg
BW100	1076	2475	2400kg
BW120	1276	2490	2600kg
BW135	1390	2700	3562kg

### CO<sub>2</sub> EMISSIONS

Lynch is fully committed to reducing its environmental impact and is always looking at innovations to further reduce its CO<sub>2</sub> emissions.

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

For more information or to place an order call  
020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: [WWW.L-LYNCH.COM](http://WWW.L-LYNCH.COM)

## HEAVY ROLLERS

Type	Width	Height	Operating Weight
BW213	2270	2985	12525kg
BW216	2300	2985	15700kg

Extras available on heavy rollers are: Pad foot shell kit, Chalwyn valves, spark arrestors and green beacon seat belt warning system.

## TRENCH ROLLERS

Type	Width	Height	Operating Weight
BMP 8500	610 or 850	1275	1595kg

## SKIDSTEERS TRACKED & WHEELED

Extras available on skidsteers are: solid tyres, forks, augers, bale handlers, breakers, sweeper, bucket, planer, grapple, mulcher, compactor & others, Chalwyn valves, spark arrestors and green beacon seat belt warning system.

Type	Weight	Width	ROC*
S130	2.37T	1524	590kg
S570	2.93T	1727	884kg
T590	3.5T	1727	952kg

\*Rated Operating Capacity

### OPERATORS

All operators available with our core products have CPCs, CBH Medical and many are available with PTS, LUL, Airport and Nuclear passes.

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

For more information or to place an order call 020 8900 0000 or email [enquiries@l-lynch.com](mailto:enquiries@l-lynch.com)

## TRACTORS

Lynch has a range of John Deere M-series tractors available with a horsepower range from 135-195.

Horse-power	Weight	Width	ROC*
135	6200kg	2490	9950kg
155	6700kg	2490	11000kg
175	7500kg	2550	12300kg
195	7500kg	2550	12300kg

\*Rated Operating Capacity

### BIO-DEGRADABLE HYDRAULIC OIL

We can convert our machines to use Bio Oil at our customers' request. This is needed on sensitive sites such as Environment Agency works, harbour or sea defence. All machinery that has Bio Oil will be clearly labelled.

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

## DEMOLITION EXCAVATORS

Extras available on demolition excavators are: 360° cameras, slew restrictor, height restrictor, safe load indicator, Chalwyn valves, spark arrestors, check valves on boom and dipper, offset boom, rubber tracks, beacon, seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
15T	2690	2770	6060
22T	3080	3045	6620
30T	3390	3180	6915
38T	3390	3160	7380
45T	3350	3455	7741

All our demolition excavators come complete with ROPS/FOPS demo cages, cab guards, ram guards, side skirts and toughened belly plates.

All machines piped with two way breaker pipe work. Additional hydraulic lines available.

### CO<sub>2</sub> EMISSIONS

Lynch is fully committed to reducing its environmental impact and is always looking at innovations to further reduce its CO<sub>2</sub> emissions.

Stage 4 Low emission engines, up to 18% fuel saving when operated in correct mode.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

# ATTACHMENTS

Lynch is one of the leading specialists in the hydraulic attachment industry. From the quarrying industries to construction, from demolition to recycling, we can ensure you receive support wherever you are based in the UK. We offer immediate availability with attachments and cradles to suit almost every excavator in the UK.

## KEY BENEFITS

- No minimum hire period on all of our standard attachments.
- Market leading products that are renowned for their reliability, performance and productivity.
- Delivery and installation — all of our attachments can be installed by our experienced field engineers who will fit and install our products on your excavator to ensure you have maximum performance.
- Priority repair or replacement in the event of breakdown.
- Technical support to ensure that you are getting the correct product for your application.
- Lynch can provide a full range of Pro-Dem and Atlas Copco products nationwide.

## WIDE RANGE AVAILABLE INCLUDING:

- Hydraulic Breaker
- 5 Finger Grapple
- Grab Bucket
- Pulverisers
- Rotating Shears
- Tilting Buckets
- Kerb Grab
- Augers
- Post Rammer
- Selector Grabs
- V Ditch Bucket (made to spec)
- Loading Buckets
- Ripper Tooth
- Excavator mounted pallet fork
- Pile Crushers
- EMV
- Clam Shell Buckets
- Munchers
- Grapples
- Crusher Buckets
- Riddle Buckets
- Magnet

# TOTAL WASTE MANAGEMENT SOLUTIONS

## SITE WASTE MANAGEMENT PLANS

Our fully managed service brings together all aspects of on-site waste management.

## BROWNFIELD SOLUTIONS

Disposal of excess materials and removal of contaminants through to the supply of aggregates and fill materials.

## SKIP AND CONTAINER HIRE

Skips remain the original and most versatile waste disposal option • 6-40 YD skips open and enclosed

## TECHNICAL AND HAZARDOUS WASTE

Total solution for the identification, collection and treatment of all hazardous wastes in packages and bulk.

## LIQUID WASTE

Gullies emptied • Interceptors unblocked & serviced  
• High pressure water jetting • CCTV available on request

## LYNCH CAN HELP YOU SAVE TIME, MONEY AND THE ENVIRONMENT TOO!

Lynch provides various environmental solutions that take a holistic approach and balances environmental responsibility and a strong bottom line.

- Friendly, knowledgeable staff.
- IPAF and PASMA training.

### MOBILE CRANES

With a wide range of suppliers, Direct Solutions can provide competitive rates on a large number of mobile cranes across the UK.

From short contract lifts to long term hires we will manage the hire from beginning to end.

### LOADING SHOVEL

We offer a range of loading shovels with bucket capacities from 1.0m<sup>3</sup> to 4.0m<sup>3</sup>. Most loading shovels have hydraulic quick hitches to allow quick exchange of attachments including pallet forks, sweepers and bowsers. Solid or foam filled tyres.

### ACCESS

Low level access • Scissor lifts • Boom lifts • Peco lifts  
Manual material handling • Specialist • Aluminium towers
